Key Product Features & Benefits

Cordless Robotic Cleaner

Freed from its cord, KLIMBA™ is compact, lightweight and very easy to start up. The Lithium-Ion battery gives it more freedom of movement when cleaning the pool, and the user can see the battery charge level at a glance by checking its LED battery indicator light.

Efficient Floor and Wall Cleaning

It effectively cleans the floor and walls of above-ground pools and small in-ground pools without compromise in a 2 hour cycle. Thanks to its 200µ filter canister with 2L capacity and front scrubbing brush, it quickly removes stuck-on debris before sucking it up and provides optimal cleaning of the pool floor.

Effortless Handling

The filter canister of KLIMBA™ can be accessed from the top of the robot, making it very easy to clean and helping you avoid any contact with debris.

Once the cleaning cycle has ended, the robotic cleaner stops next to the pool wall for easier removal from the water with the hook provided with the device.

The intuitive LED on the back of the cleaner makes it possible to view the battery charge status and cycle status.

Product Specifications

- ✓ Connection: Cordless
- ✓ Battery: Lithium-Ion 21.6V/5.1Ah
- ✓ Charge Time: < 4 Hours
- ✓ Cleaning Cycle: 2 Hours
- ✓ Cleaner Weight: 6 kg
- ✓ Gross Packaging Weight: 8 kg
- ✓ Retrieval Modes: Manual Hook
- ✓ Pool Type: In-Ground Pool and Rigid Wall Above Ground Pool
- ✓ Pool Shape: All Shapes
- ✓ Pool Surface: All Pool Surfaces
- ✓ Maximum Pool Size: 8m x 4m
- ✓ Debris Collection: 2 Litre Capacity with 200 Micron Filter Canister
- ✓ Debris Type: All types of debris

Packaging Content

- ✓ 1x BARACUDA® KLIMBA™
- ✓ 1x Manual Hook
- ✓ 1x Charging Cable
- ✓ 1x Quick Start Guide
- ✓ 1x Warranty card

The KLIMBA™ charger port should not be exposed to water. Before charging, ensure the charging port is dry before plugging the charging cable into the cleaner. Charging should take place indoors. Ensure the charging port cap is tightly secured and closed before the cleaner is put in a pool.
